Abdullah Al Azad

Competive Programmer | Co-ordinator | Trainer | Mentor

As Coordinator at the IIUC Competitive Programming Society, I have experience organizing regular sessions for participants, coordinating with trainers, and aligning participants with mentors. I'm passionate about competitive programming to develop my skills and help others do the same. My technical abilities are further enhanced by MERN stack project experience and ongoing exploration of Machine Learning, including completed projects. I seek professional opportunities to apply this combination of technical and organizational expertise.
